### French Lesson 3: Days of the week.

Watch the BBC video on Teams / your class home learning page to hear a song about the days of the week in French. You might remember some of the days already from your French lessons in school. There is also a link to a short YouTube video to help with pronunciation.

**TASK:** Once you have watched the videos, complete the table to show the missing days of the week.

See what you can do from memory, then use the word bank below to check your spellings

**Challenge:** use the phonetic pronunciation guide here and the clues in the video to practise saying the days of the week out loud. Bonne chance!
